

GOODMEN

Oil Field Services

GOODMEN

Introduction

Goodmen is dedicated to provide oilfield services to E&P sector with highest quality & total customer satisfaction. Our services span around providing various oilfield services to E&P industry and since Goodmen's inception, we are committed to the service quality, which has become Goodmen's trade-mark.

Goodmen continue to transform as we aim for sustainable growth based on our philosophy of "placing clients at the heart of everything we do." Goodmen by its name stands for its commitment, customer care & integrity.

What Company Offer...

Goodmen equipment are compliant to NACE MR-01-75 & API/ASME codes. Goodmen provide following services:

- Surface Well Testing & Data Acquisition
- Well Testing Campaign
- Extended Well Testing
- Early Production Facilities and Gas Processing Plants/Equipment
- Surface Sampling & Analysis

Surface Well Testing & Data Acquisition System

Goodmen provide Well Testing Services at exploration & appraisal wells. Well Testing Services provides surface productivity, fluid properties, composition, flow-rates, pressure & temperature. These parameters further enhance reservoirs evaluation of exploration & appraisal wells.

Goodmen's Data Acquisition comprises of wireless acquisition sensor configured to display well flow-rates, pressure & temperature on software as real time data. Goodmen's Data Acquisition parameters are equipped to provide comprehensive & detailed Well Test Report.

Well Testing Campaign

Goodmen Well Testing Campaign is provided at numerous wells in a row, in order to evaluate surface productivity, fluid properties, composition, flow-rates, pressure & temperature, of different wells, in the similar field.

Extended Well Testing

Goodmen performs Extended Well Testing with its Well Testing Equipment, in order to evaluate reservoir production characteristics and to further plan the developmental phase of the field. Goodmen's Extended Well Testing leads to production methods, secondary recovery programs and future developmental drilling plans, as well.

Early Production Facility and Gas Processing Plants/Equipment

Goodmen offers fast track Early Production Facility with Well Testing Equipment, to maximize return on investment on hydrocarbon exploration. Goodmen's offers permanent Early Production Facilities with Well Testing Equipment. Moreover Goodmen has established supply chain contract for the supply of Gas Processing Plant/Equipment, from world's best manufacturers.

Surface Sampling & Analysis

Obtaining samples suitable for Pressure-Volume-Temperature (PVT) analysis, at well-site operation. PVT Analysis Report, i.e. Black Oil PVT Analysis, Volatile Oil PVT Analysis, Gas Condensate PVT Analysis, Gas Compositional Analysis and Water Analysis are provided from our PVT Laboratory in UAE.

A Goodman technician is shown from the chest up, wearing a white hard hat with the Goodman logo, safety glasses, and a blue long-sleeved work shirt with reflective stripes and a pocket. He is wearing white gloves and is focused on adjusting a yellow mechanical device with several horizontal rods. The background is a plain, light-colored wall.

COMMITTED TO
THE SERVICE
QUALITY...**

Our Experience

MPCL 2017

Well Testing at Halini Well

PPL 2017

Surface Well Testing at Adhi Well

MPCL 2017

Extended Well Testing, at Zurghun Well

MPCL 2017

Early Processing Facility (EPF) with O&M, at Kalabagh

MOL 2016-17

Water Injection Project with Supply, Installation & Commissioning and O&M at Makori West Well

PPL 2016

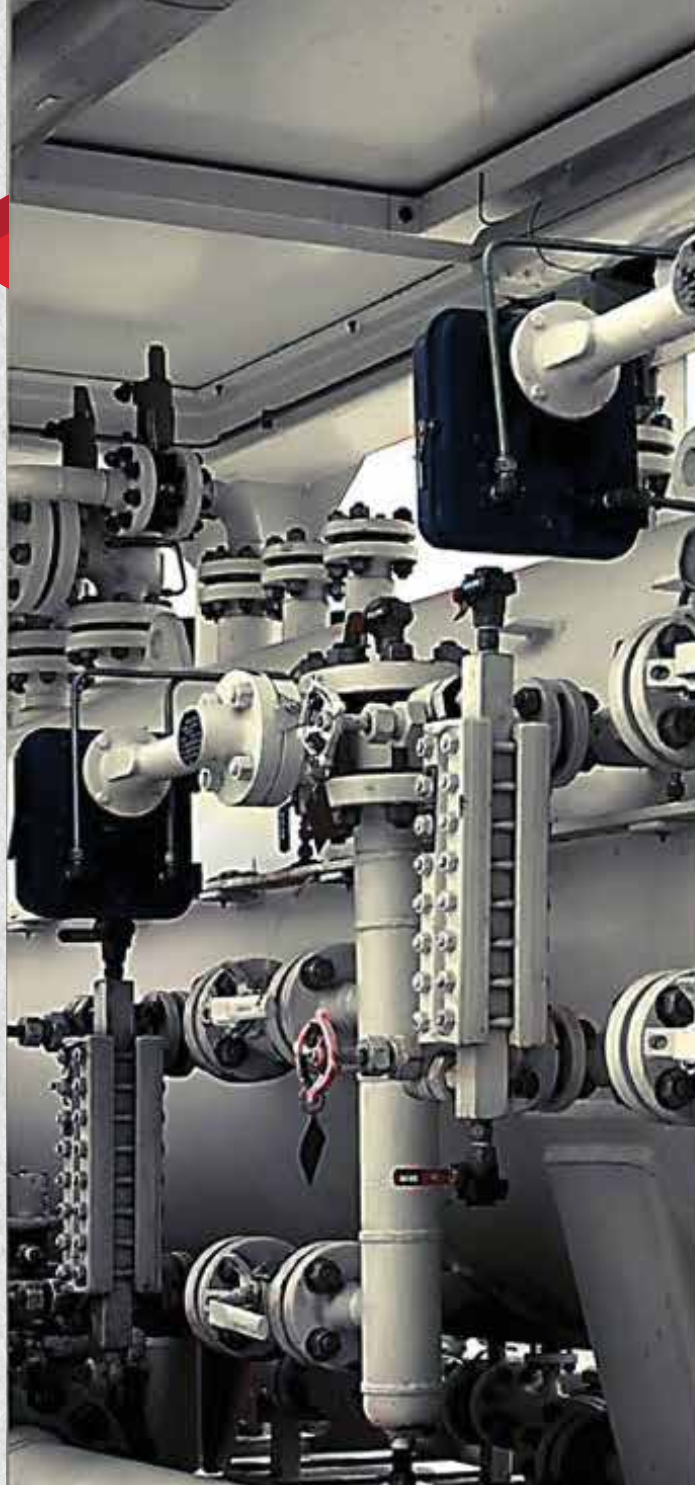

Surface Well Testing at Adhi Well

MPCL 2015-16

Condensate Storage Facility with Supply, Installation and O&M at Kalabagh Well

MPCL 2014-15

MPCL - Condensate Storage Facility with Supply, Installation and O&M at Zurghun Plant

Clientele & Rewards

Goodmen work is always appreciated by the clients. We have received rewards & appreciations from our clients. Goodmen remains dedicated to work with similar faith & enthusiasm, in oilfield services.
